

# NGUYEN VAN CHI THANH

FULLSTACK

**Address:** Go Vap District, Ho Chi Minh City  
**Phone:** 0399323006  
**Email:** chisthanhdev@gmail.com  
**Linkedin:** <https://www.linkedin.com/in/chis-thanh>

## SUMMARY

My name is Nguyễn Văn Chí Thanh, and I am currently a senior student majoring in Software Engineering. With 4 months of practical experience working with technologies such as Laravel, FastAPI and React, I have gained solid knowledge in software development, including OOP, SQL, and various Design Patterns. I am looking for opportunities to work in a professional environment where I can continue to learn and develop new skills.

My goal for the next 5 years is to become a Team Leader, guiding and supporting team members in completing tasks while contributing to the development of high-quality products.

## WORK EXPERIENCE

### INTERN FULLSTACK | POGOFDEV | JULY 15 - NOVEMBER 1, 2024

#### Dabi Client Portal

August 2024 - November 2024

- **Description:**
  - The project is a CMS website designed to manage clubs, optimizing member organization and management, while integrating automation features. The system allows each club to be managed independently through its own domain, making operations more efficient.
- **Responsibilities:**
  - Automating Domain Creation and Configuration:
    - Use Nginx Proxy Manager combined with Laravel to automate domain creation for each club.
    - Ensure smooth domain configuration and synchronization with system data.
  - Developing APIs:
    - Develop APIs to synchronize domain data, manage user permissions, and handle related tasks.
- **Technologies:** Laravel (PHP), Nginx Proxy Manager, Docker, MySQL, React + Inertia.js.
- **Project Duration:** 2 months (August 2024 - September 2024).
- **Team:** 3 Members.

## PERSONAL PROJECT

#### Evermore Bakery Shop

August 2024 - Present

- **Description:**
  - The project is an online cake store website designed to provide a convenient and seamless shopping experience for users. The website integrates an intelligent chatbot that suggests products based on customer interactions and search keywords related to the products, helping users easily find their favorite cakes or the most suitable ones.
- **Responsibilities:**
  - Integrate the chatbot and product suggestion features based on user interactions.
  - Provide search keyword suggestions and support shopping cart management.
  - Integrate online payment via VNPay.
  - Manage the CMS system to facilitate the easy management of products, orders, and customer information.
- **Technologies:**
  - **Laravel:** Build the web application platform.
  - **FastAPI:** Provide APIs for chatbot and product suggestion features.
  - **Typesense:** Support fast product search and suggestions.
  - **GeminiAI:** Keyword analysis for products.
  - **Other:** SQL Server, Docker, Redis, Tailwind CSS, JavaScript.
- **Team:** 3 members.
- **Source:** <https://gitlab.com/ChisThanh/evermore-bakery.git>

## TECHNICAL SKILLS

---

- **Frameworks & Languages:** Laravel (PHP), FastAPI (Python), React (TypeScript).
- **API Design:** RESTful APIs, GraphQL, WebSockets.
- **OOP & Design Patterns:** SOLID, Singleton, Repository.
- **Search Engine:** Typesense, Elasticsearch,...
- **Database:** MySQL, SQL Server, MongoDB, Firebase,...
- **DevOps & Deployment:** Docker, Git, Linux, Nginx, Apache, VPS Management, AWS EC2,...
- **Frontend:** Ant Design, Tailwind CSS, Bootstrap 5,...

## EDUCATION

---

HO CHI MINH CITY UNIVERSITY OF INDUSTRY & TRADE (HUIT)

2021 - 04/2025

- **Major :** Software Engineering
- **GPA:** 3.5 / 4.0

## SOFT SKILLS

---

- Problem-solving, Data analysis, Clean Code, Collaborate, Presentation skills, Teamwork, Communication skills

## ACHIEVEMENTS & CERTIFICATIONS

---

- **2022:** Second Prize – Department-level Research Competition.
- **2024:** First Prize – Department-level Academic Competition.
- **2024:** Finalist – University-level Research Competition.

## LANGUAGES

---

- **English:** B1 English level.
